

Boat Portable Fish Finder

(wireless mode)

PRODUCT SPECIFICATION:

- 1) Display: high contrast FSTN LCD
4-level grayscale, 160V X 132H
- 2) Power output (RMS): 100 W
- 3) Power output (peak-to-peak): 800 W
- 4) Operating frequency: 125 kHz
- 5) Sonar coverage(wireless): 90 degrees at 125 kHz
- 6) Depth Units: Meters/Feet
- 7) Depth capability: 140 feet
- 8) Wireless operating range: Up to 1000 feet
- 9) Target separation: 2.5 inches
- 10) Fresh/Salt Water Environment
- 11) Temperature sensor: included in transducer
- 12) Operational Temperature: From -10C to 50C (14 Fto122 F)
- 13) Power input: 10 to 20 V DC / 8 AAA alkaline battery
- 14) Transducer mounting: Suction cup mount, wireless
- 15) Unit mounting: Portable case
- 16) Clear fish icon, fish alarm
- 17) Memory: Built –in memory stores sonar setting when the unit is turned off
- 18) W-Sensor could shut down when it is out of the water
- 19) W-Sensor battery requirement: One replaceable CR-2032 lithium battery
- 20)Operational wireless Frequency: 433.93mHz
